2.1. The fertility and the biological activity of the soil must be maintained or increased, in the first instance, by:

(a) cultivation of legumes, green manures or deep-rooting plants in an appropriate multi-annual rotation programme;

(b) incorporation of livestock manure from organic livestock production in accordance with the provisions and within the restrictions of part B, point 7.1, of this Annex;

(c) incorporation of other organic material, composted or not, from holdings producing according to the rules of this Regulation.
